INFRMATION FOR ATRS

The work of the editor will be greatly facilitated if authors maintain the following instructions:-

Manuscripts must be written English and sent to the editor in chief , submission of a manuscript implies that it been approved by the named authors , that it reports their unpublished work, and that it is not sent for publication elsewhere.

1. Manuscripts should not exceed 15 (A4) pages including figures and tables, produced using Microsoft word, with Times New Roman font 11 single space typewritten. The page setup left and right margins of 4.5cm and bottom margin of 21.8 mm.
2. The original and two copies should be submitted, and on a CD disc. The file on the disc should exactly correspond to the hard copies.
3. Authors have to the following format:
 - a. **Title page**, headed by a concise but informative full title font size 14pt **bold**, name(s) font size 12pt, and address of the place where the work was carried out font size of 11pt.
 - b. **Abstract**, containing brief but informative details of the contents and conclusions of the paper and should not exceed 200words.
 - c. **Introduction**, stating the reasons for carrying out the work.
 - d. **Materials and Methods**, containing sufficient experimental details so that methods can be reproduced by researchers (in experimental papers)
 - e. **Results** should be described as concise as possible.
 - f. **Discussion** should not recapitulate results in detail or contain new information but should emphasize the relevance and significance of the findings reported.
 - g. **Conclusion**.
 - h. **Acknowledgement**.
 - i. **References** should be cited in the text a number in square brackets []. All references should be included at the end of the manuscript successively Correct references are the responsibility of the author.
