Aims of the Journal

This journal aims to provide a reliable source of information on current research and development in the fields of basic and applied sciences, on the national and international levels, as well as exchange of ideas and information for experts in these fields. Moreover, it will provide an opportunity for researchers to publish their works.

Editorial Board Looks forewords to develop the journal and to promote it to be at the level of international scientific journals, and expand their reach circle to allow the largest possible number of interested to follow it by publishing all its issues through the internet web site.

Call for Papers

The Editorial Committee invites teaching staff members, postgraduate students, engineers, researchers and all those concerned with basic and applied sciences, and technology fields to submit their research work to be published in the journal. The journal publishes scientific papers (basic and applied research, review papers) technical reports, technical notes and book reviews in the mentioned fields.

Terms of Publication in the Journal

1. The papers and reports should be an original work and not considered for publication elsewhere. Papers published in conferences may be considered for publication in the journal after they go through the evaluation process and if they do not conflict with the copyright of the conference proceedings.
2. All papers and reports are subject to evaluation and may not be published unless all the required corrections are met and the author's guide for publication is followed.
3. The accepted papers could be written in Arabic (with English abstract), or in English (with Arabic abstract).
4. After acceptance of the paper or report for publication in the journal, it should not be considered for publication in another journal and the author should sign a copyright agreement with the editorial board of the journal.
5. Authors should include the full title of the paper, the author's full name, Author's affiliation and address, e-mail address.
6. Papers not written according to the stated instructions will not be considered for refereeing.

Typing Instruction

In spite that an electronic paper template is available, Authors are kindly requested to abide by the following instructions:

1. Manuscripts should not exceed 15 (A4) pages including figures and tables, produced using Microsoft word, with Times New Roman font 12pt single space typewritten. The page setup left and right margins of 13.5 mm and top margin of 25.4 mm and bottom margin of 21.8 mm.
2. The original and two copies should be submitted, and on a CD disc. The file on the disc should exactly correspond to the hard copies.
3. Authors have to the following format:
 - a. *Title page*, headed by a concise but informative full title font size 14pt bold, name(s) font size 12pt bold, and address of the place where the work was carried out font size of 11pt normal all titles with font size of 12 pt bold.
 - b. *Abstract*, containing brief but informative details of the contents and conclusions of the paper and should not exceed 200words, size 12 pt.
 - c. *Introduction*, stating the reasons for carrying out the work, size of 12 pt.
 - d. *Materials and Methods*, containing sufficient experimental details so that methods can be reproduced by researchers (in experimental papers), size 12 pt.
 - e. *Results* should be described as concise as possible, size of 12 pt.
 - f. *Discussion* should not recapitulate results in detail or contain new information but should emphasize the relevance and significance of the findings reported, size of 12 pt.
 - g. *Conclusion*, size of 12pt.
 - h. *Acknowledgement*, size of 12pt.
 - i. *References* should be cited in the text a number in square brackets []. All references should be included at the end of the manuscript successively with size of 8pt. Correct references are the responsibility of the author.

Notes

- 1. the Journal has the right to publish these researches and makes use of them in scientific fields without referring to their owners, provided always referring to the owners of these studies/research according to generally accepted rules.**
- 2. Manuscripts submitted for publication does not respond to their owners, whether published or not, the applicant is not entitled to claim them.**
- 3. Editors of the journal reserve the right to make editorial changes in any manuscript accepted for publication for the sake of style or clarity. Authors will be consulted only if the changes are substantial.**
- 4. Author/s must pay all the expenses incurred in the review process if s/he decides to withdraw his/her research paper whilst it is undergoing review.**

Contents

English Part

Research Title	Authors
A three-dimension finite element analysis to evaluate the effect of rigid and non-rigid connectors in tooth-implant supported prosthesis	Amel A. al-zuweedi Hussam El-Din F. El-Sheikh
Application of python in the estimation of petrophysical properties, Sarir Field	Reema O. Khalliffah
Numerical Study of Resilient Implant with micro-movable element Implemented in Dental Prosthesis	Amel A. al-zuweedi Hussam El-Din F. El-Sheikh
Numerical Study of the effect of three leaflet opening angles on the blood flow through a bileaflet mechanical heart valve	Huda Othman Abu-baker Al-Debri Hussam El-Din F. El-Sheikh
Computational Approach for Evaluating the effect of Stent Materials on Biomechanical Properties	Siham I. Elgirbi Hussam El-Din F. El-Sheikh
Design of Human Prosthetic Hand	Hossam-eddin Ahmed Alraouby Hussam El-Din F. El-Sheikh
Determination of Knudsen diffusion of gas flow in artificial porous media	Salem. M. Alburki
Enhancement of Safety and Reliability in Refineries by Effective Assets Integrity Management: A Case Study of AGOCO Refineries in Libya	Iftikhar Ahmad Youssef El Kizza Abdelsalam Sadawi
Highly efficient eco-friendly corrosion inhibitor for mild steel in Alkalin Environment at different concentrations & quantities: experimental & molecular dynamics study	Abdalbaset M. Algish Fathi I. Ashour Salah M. Algoul Abdalhamed A. Musbah
Investigate the Petrophysical Characteristics of Lower Akakus Reservoir in (A) Structure -NC118 Oil Field by Using Well Logging Data, Ghadames Basin, West Libya	Ayad M. Elkordi Mohamed. H.Targhi Mohamed .A.Sultan Nefati.N.Tarhuni Magdi.M.Alduberi

Research Title	Authors
Investigation of Using Polyethylene Glycol-400 (PEG-400) As a Surfactant for Separation of organic dyes and some heavy metals from Water Samples by Cloud Point Extraction	Abdelsalam Asweisi Khalifa Algheryani Ebtehal Almusrati Rawa Altarhouni
Investigative SCM in Africa Bottling Operations LTD By Using Simulation Modeling Software Arena	Elbahlul M. Abogrean Sabri A. Ekreem
Modifying the κ -Parameter in the Peng Robinson Equation of State to Improve Prediction of Vapor Pressure at Low Temperature and Binary Mixture Phase Equilibria	Ali R. Aldressi Belied S.Kuwairi
Nodal analysis calculation for the estimation of the best operating conditions using two wells	Muhab Abeed Maamar Khalleefah
Non-newtonian melt flow of thermoplastic materials in extruder	Shada Alem Mohamed M. Alghiryani Melod Unis Amal Salem
Optimization of the Concentration Bath of Ni-P Electroless Plating by Photon Energy	Faiza Aljaray
Physical Properties of Epoxy Foam Prepared Using Natural Rubber As Toughening Agent	Mohamad Saed Hussein Pei Leng The Firuz Zainuddin Abdul Razak Rahmat Cheow Keat Yeoh
Seismic Response Spectrum Curves for Selected Cities in Libya	Ali S. Ngab Gofran M. Tajuri
Selection of the best acid formulation for acidizing dolomite formation in Gialo-59 oil field	Salim Aburaqibah Abdulhadi Elsounosi Khalifa Mouna Mohamed Marghani
Statistical Process Control Implementation in Pharmaceutical Industry for production process	Ghada Yassin Alelemee Zedan Hatush
Supply Chain Performance Measurement using Balanced Scorecard in some of Libyan Companies	Fathi Almbot Abdusalam Sharf
The Potential of Implementing Building Information Modeling (BIM) in Libyan Construction Industry	Mohmed Solla Ehab Ali Eshtiwi Mahssn Mohamed Jabrel

Academy Journal for Basic and Applied Sciences (AJBAS)

*Periodical Electronic Scientific Journal issued
by Scientific Research Affairs of Libya Academ*

Volume (5) No. 3 "Special Issue" July 2023

Research Title	Authors
The Risks of Multi Package Contracts within Complex Projects	Ali AlBarkous Zedan Hatush Omarn Mohammed
The role of defect elimination as strategy to improve reliability	Elmeshrgui Abdalla Qarash Abraham
Understanding Risk Culture among Institutional Managers in Libya	Karima Milad Eshtiba Saber Khaled Elmabrouk
Which Type of Water Injection is Able to Give a Higher Oil Recovery Factor "Formation Water or Sea Water"?	Madi Abdullah Naser
